

Titan Forage Rapeseed

An Ideal feed option when dry matter yield and rapid acceptance by grazing animals is important to you.

- High yielding multi-graze, intermediate height rape available with a potential yield of 9,000 lbs DM/acre
- Highest animal preference rape cultivar available
- Excellent regrowth potential– Good for 2 Grazings!
- Suitable for summer, autumn and winter feed
- Excellent aphid and virus tolerance
- Early Maturing
- Great for wildlife food plots!

Titan® forage rape – the tasty rape your stock prefer to eat. Titan combines early maturity, high dry matter yields and excellent palatability to deliver a high quality summer/autumn/winter feed option. It is an intermediate height rape that was bred to replace Maxima Plus. Strong regrowth potential offers a multi-grazing option for all farm systems. Good aphid and virus tolerance means Titan will last the distance under challenging conditions.
