

GROPAK A.I.

WHAT IS GROPAK A.I.™

- GroPak A.I. is AgXplore's "All-In planter box treatment". GroPak A.I. combines key micronutrients, a biological package, and talc, to promote better seed flowability through the planter and to promote early season plant vigor

HOW DOES GROPAK A.I.™ WORK

- nCeption provides carbon sources that increase nutrient absorption
- NTake maximizes nutrient mobility to critical plant systems
- Biological package promotes nodulation and supports nutrient uptake and utilization

WHY USE GROPAK A.I.™

- GroPak A.I. provides micronutrients, biologicals, and technology on the seed primarily to aid in germination and emergence
- Formulation to improve seed flow, replacing the need for traditional talc/graphite products
