

Exceed[®] Inoculant for Peanut

EXCEED[®] SAR PLANT DEFENSE BOOSTER

Formulated to be applied at the retail location, Exceed[®] SAR Plant Defense Booster Custom Liquid Inoculant offers numerous benefits to growers to ensure a successful and ultimately a high yielding crop.

Benefits of Exceed[®] SAR

Improved Yields

- An increase of 434 pounds per acre over the non-inoculated control was demonstrated in university trial locations

Nematode Suppression

- By disrupting the life cycle of the nematode, Exceed[®] SAR can alter the effect the nematode has on young peanut plants

Plant Vigor

- The Exceed[®] SAR mode of action enables the seed to germinate quickly and stimulates plant hormones responsible for root formation and development.

SUPERIOR CONCENTRATION

Minimum guaranteed analysis of 4.5 billion (4.5×10^9) viable cells per mL of *Bradyrhizobium sp. (vigna)*.

PLANTING FLEXIBILITY

Exceed[®] SAR Custom Liquid Inoculant contains rhizobia extension products, which open the planting window if soil conditions become less than ideal after the seed is inoculated, even if the seed has been treated with a fungicide or insecticide.

APPLICATION RATE - 1.1 fl oz/1,000 ft of row

FAMILIAR PACKAGING

Available in a 4x10 acre case.

Exceed[®] SAR carries a one-season shelf life.
